(f) the Debtors' reasons for abandonment

The Company marketed de minimis assets to potential buyers on a local, regional, and national level and did not receive any economically viable bids for the items referenced herein.

The Company has determined the cost of continuing to maintain, relocate, and/or store these de minimis assets outweighs any potential recovery from a future sale. The cost to continue to store such items would amount to 0.7% of the purchase price of the properties at which the assets are located per the Asset Purchase Agreement Dated as of December 4, 2023 between the Debtors and XPO, Inc.

(g) any fees or similar expenses to be paid in connection with the abandonment

None

¹ The de minimis nature of the items in question is below the capitalization threshold of the Company's typical accounting procedures and thus there is no associated appraised or book value for the applicable assets.

² There may be additional de minimis assets that fit the above criteria but are not described in the information provided herein as it is based on all readily available information at this time, but such de minimis assets will nonetheless also be abandoned pursuant to this notice. For the avoidance of doubt, this abandonment notice also serves as notice of abandonment of such additional units not specifically enumerated herein.
